Charging

Fully charge the camera before use

The camera does not come fully charged due to safety regulations. Before using it for the first time, please charge it for 10 hours with the charging cable inside the box (DC5V / 1A).

Ladda kameran fullt innan användning.

Kameran levereras inte fulladdad av säkerhetsskäl. Innan du använder den för första gången, ladda den i 10 timmar med laddningskabeln som finns i boxen (DC5V / 1A).

Status Light Statuslampa	Description Beskrivning
Solid red Rött fast sken	Charging Laddar
Off Släckt	Fully charged Fulladdad
Solid blue Blått fast sken	Working Aktiv / fungerar
Flashing blue Blått blinkande sken	Wi-Fi Config Mode Wi-Fi-konfigurationsläge

When charging and operating, both the ambient temperature and camera temperature should be within 14°F to 113°F (-10°C to 45°C). If the camera has been exposed to low temperatures for an extended period, it should be brought back to room temperature before charging.

När kameran laddas och används ska både omgivningstemperaturen och kamerans temperatur ligga mellan 14°F och 113°F (-10°C till 45°C).

Om kameran har varit utsatt för låga temperaturer under en längre tid bör den värmas upp till rumstemperatur innan laddning.

Downloading the Birdfy App

Follow the in-app instructions to set up your Birdfy
Följ instruktionerna i appen för att ställa in din Birdfy.

Pair your Birdfy device with the app
Koppla ihop din Birdfy-enhet med appen.

Story

Story is a unique AI function available on the Birdfy Nest Ebony. It consists of two parts: bird behavior identification and automatic video clip generation.

- Bird Behavior Identification: The AI identifies bird behaviors throughout the entire breeding process and notifies you of every key stage, such as nesting and hatching. These behaviors are recorded and stored as video clips.

- Automatic Video Clip Generation: Once the nesting brood has completely fledged, the AI combines and edits the video clips to create compilation videos of the breeding process for your viewing pleasure.

Please note that the Story feature is completely free and does not require any subscription. It is automatically activated once your Birdfy Nest Ebony starts working.

Story

Story är en unik AI-funktion som finns tillgänglig på Birdfy Nest Ebony. Den består av två delar: identifiering av fågelbeteende och automatisk generering av videoklipp.

- Identifiering av fågelbeteende: AI:n känner igen fåglars beteenden under hela häckningsprocessen och meddelar dig om varje viktigt steg, såsom boande och kläckning. Dessa beteenden spelas in och sparas som videoklipp.

- Automatisk generering av videoklipp: När alla ungar har lämnat boet kombinerar och redigerar AI:n videoklippen för att skapa samlingsvideor över häckningsprocessen som du kan njuta av. Observera att Story-funktionen är helt gratis och kräver ingen prenumeration. Den aktiveras automatiskt när din Birdfy Nest Ebony börjar fungera.

Assembly

Connect the camera to the solar panel.

Anslut kameran till solpanelen.

Install the camera with the provided thumbscrew.

Installera kameran med den medföljande tumskruven.

Outdoor Installation

A. Pole-mounted

1. Loosen the hose clip.

1. Lossa slangklämman.

2. Wrap the hose clip around the bracket.

2. Linda slangklämman runt fästet.

3. Attach the bracket to the pole.

3. Fäst fästet på stolpen.

4. Hang the birdhouse on the pole.

4. Häng fågelhuset på stolpen.

B. Wall-mounted

1. Use the drill template and an electric drill (15/64", 6mm) to drill four holes.

1. Använd bormallen och en elektrisk borr (15/64", 6 mm) för att borra fyra hål.

2. Drive the provided plastic anchors into the holes. Skip this step if you are mounting on wood. Next, fasten the hanging bracket on the wall using the screws.

2. Tryck i de medföljande plastankarna i hålen. Hoppa över detta steg om du monterar på trä. Fäst sedan upphängningsfästet på väggen med skruvarna.

3. Hang the birdhouse on the wall.

3. Häng fågelhuset på väggen.

Cleaning

*Please note that bleach should not be used.

*Observera att blekmedel inte får användas.

Maintenance

Seal Your Birdfy

Ensure the longevity of your wooden Birdfy product by sealing it before use.

För att förlänga livslängden på din Birdfy i trä, försegla den innan användning.

Warning

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications made without explicit approval from the responsible party in compliance may result in the user being unauthorized to operate the device.

This device meets the FCC radiation exposure limits for uncontrolled

environments. To ensure safe installation and operation, maintain a minimum distance of 20cm between the radiator and your body.

FCC ID:

CE Statement

The information provided on the packaging is allowed to identify geographical areas within the member states where restrictions on use or requirements for authorized use exist, if applicable. The structure of the product allows it to be used in at least one member state without violating applicable requirements for the use of radio spectrum.

NETVUE INC.

1055 East Colorado Boulevard 5th Floor

Pasadena, CA, 91106

IC Statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils

radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

3. L'appareil ne doit pas produire de brouillage;
4. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body.

Cet équipement respecte les limites d'exposition au rayonnement IC établies pour un environnement non contrôlé.

Cet émetteur ne doit pas être localisé ou fonctionner en conjonction avec une autre antenne ou un autre émetteur. Cet équipement doit être installé et utilisé à une distance minimale de 20cm entre le radiateur et votre corps.
